### ► The Great American Hot Air Balloon Ride

**Excitement builds as the crew inflates our beautiful 7-story high balloon.** Then we gently ascend and float between 500 and 1000 feet wherever the wind takes us, above the treetops and below the clouds. We travel for about an hour, covering 5 to 10 miles, beautiful views on every side. On landing, we celebrate with a champagne or fruit juice toast. Beginning to end, almost three unforgettable hours! Room for up to 4 passengers. More in some areas.

### ► The Great American Soaring Glider Ride

**Your glider pilot takes you for an awesome silent flight no words can express.** With our highly skilled pilots, the 30-35 minute flight is exciting and the landing is smooth, within a few feet of the takeoff spot. In some areas we actually tow to a mile high, but in areas of good lift we tow to lower altitudes to take advantage of the natural updrafts. Dual-controlled gliders, so your pilot will let you take the stick and fly some of the flight if you wish, or you can just relax and enjoy your ride.

### ► The Great American Tandem Skydiving Ride

**After training, you and your instructor board the jump plane with your group** and your aircraft climbs to between 10,000 and 13,500 feet. Signals are given, and you exit the aircraft, harnessed to your instructor. The free-fall is a rush and the natural feeling of flying is breathtaking. Then, the chute is opened and you and your instructor float to the ground together. Excitement Unlimited!
